  Monomers or Additives used for producing these raw materials with specific migration limits, which are listed in Appendix I or II of the (EU) regulation No. 10/2011,don't exceed the specified limits.

Product	**Description**	**Food contact**	**Production site**
Printed and unprinted bags	Printed and unprinted bags made of paper	Dry foods	Eko papir d.o.o., Stjepana Radića 150, 48331, Gola, Croatia
Printed and unprinted bags	Printed and unprinted bags made of paper combined with plastic foil like: HDPE (high density polyethylene 6-18 microns), PPH (Polypropylene PPH 10060 7-18 micons) and OPP (oriented Polypropylene 20-25 microns)	Dry food and non fatty foods as well as moist and fatty foods provided that in latter case only the back surface is in direct contact with food. (BfR) This bags can be put in a freezer, max temperature of -25 degrees	Eko papir d.o.o., Stjepana Radića 150, 48331, Gola, Croatia

Printed and unprinted paper	Printed and unprinted paper in reels and sheets	Dry foods	Eko papir d.o.o., Stjepana Radića 150, 48331, Gola, Croatia
Printed and unprinted paper	Printed and unprinted bags made of paper combined with plastic foil like: HDPE (high density polyethylene 6-18 microns), PPH (Polypropylene PPH 10060 7-18 micons) and OPP (oriented Polypropylene 20-25 microns), in reels and sheets	Dry food and non fatty foods as well as moist and fatty foods provided that in latter case only the back surface is in direct contact with food.	Eko papir d.o.o., Stjepana Radića 150, 48331, Gola, Croatia
Printed and unprinted paper and bags	Printed and unprinted bags and paper made of paper resistant to fat and moisture.	Dry food and greasy and moist food.	Eko papir d.o.o., Stjepana Radića 150, 48331, Gola, Croatia

All of the products listed in here which are intended to came in to contact directly or indirectly with food are sufficiently inert to preclude substances from being transferred to food in quantities large enough to endanger human health or to bring about an unacceptable change in the composition of the food or a deterioration in its organoleptic properties, as stated in Regulation (EC) No.1935/2004.

We declare that none of the products of above listed contain more than 0,1 % mass fraction of the Substances of Very Concern, as stipulated on the Regulation (EC) No. 1907/2006.

Products listed can be reused, recycled or used for energy recovery.

Products are manufactured in compliance with good manufacturing practice, as we keep traceability of the materials used in the production process for all products using our ISO 9001 system and we have appropriate certificates and the declarations from our suppliers and on this basis we can issue the declaration of conformity.

Al the inks and varnishes used for the printing of paper sacks are water based. Our ink supplier has stated that their products are formulated and manufactured in accordance with the “EuPIA Guideline on Printing Inks applied to the non-food contact surface of food packaging materials and article”

This declaration is valid on the date of delivery of the material or article. It is renewed whenever compliance to above is no longer ensured (change of material, change of the type of food delivered or change in regulations before delivery of the material or article).

The declarant has kept record of all appropriate documentation in support of the said compliance, which shall be made available at any moment that the competent authorities request it.
